Select Line™

## Select Line™ Condenser Coils

### The Global Quality Alternative to Reconditioned Parts.

#### Value-Priced

Designed to meet your application needs, Select Line™ parts maintain the performance of your older equipment, while reducing repair and maintenance costs.

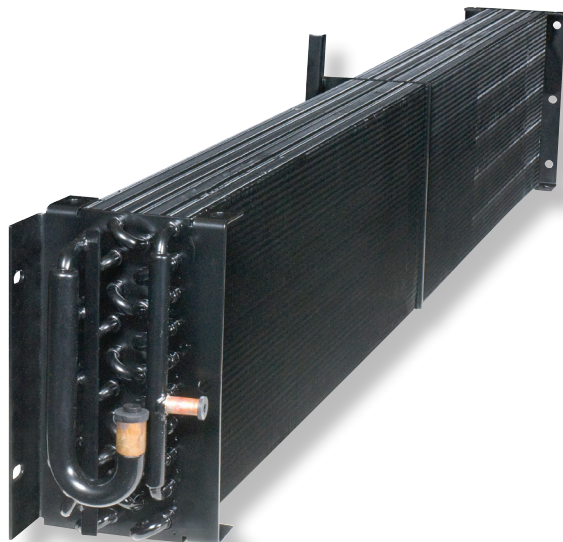

#### Factory-Backed

Select Line parts carry a limited warranty through our global parts network, so leave the risk of locally warrantied, reconditioned components behind.

#### Standard Options

Select Line parts are built with your requirements for quality and value in mind.

### For a Solid Bottom Line.

### When our premium coil may be more than you need – you now have a *quality* alternative.

Carrier Transicold offers a Select Line condenser coil to better match your OEM requirements. Our coil options help ensure that all of your refrigeration units are running at peak efficiency – no matter their age. Our coils offer high performance with unique durability specifications.

Our Select Line Condenser Coil is *designed and built by Carrier Transicold to OEM specifications*. So don't trust inferior, non-OEM imitations. You can count on our Select Line coils to keep your aging units sea-worthy without compromising performance – at a great price!
