

Return Air Bulkheads & Chutes

Keep Your Load Cool – Without Breaking Your Budget

Return Air Bulkhead

- Consistent air temperatures
 - Channels air evenly across trailer’s full width to prevent hot and cold spots allowing for efficient operation of the refrigeration unit
- Continuous, safeguarded airflow
 - Innovative primary opening design and optional mesh screen provide a strong first line of defense ensuring maximum airflow even when trailer is fully loaded
- Fast, simple installation
 - Patented one-piece unit, with integrated pallet stops; installs in 15 minutes
- High impact resistance
 - Tough HMW polyethylene plastic stands up to extremely low temperatures and the rigorous demands of the road
- USDA approved for food transportation

Chutes

- Complete line of ITP & FG Products chutes and accessories
 - Available in vinyl, mesh or polyethylene
- Available at Carrier® Transicold® Dealers nationwide
