

PowerRush™ High Cycle Battery

**High Power. High Cycling.
High Vibration Resistance**

Features and Benefits

- PowerRush wet cell batteries have been tested and approved by Carrier® Transicold® engineers to meet the tough cycling demands of Transport Refrigeration applications.
- Smart choices for your business
 - High cycle option
 - High CCA option
- Longer cycle life
- Massive cold start power
- Highly durable
 - Built in vibration resistance (exceeds the SAE standard)
 - Ribbed casing and reinforced endwall design provides sturdy structure
- Corrosion resistant
- Environmentally sustainable
 - Completely recyclable lead, plastics and acid
 - Fully protected against spillage and leaks
- 18 month free replacement warranty backed by Carrier Transicold Dealers nationwide

Specifications

Part Number	Group	CCA	Reserve Capacity (minutes)
30-50347-XX*	31	700	190
30-50348-XX*	31	750	180
30-50349-XX*	31	950	195

**Available with Threaded Stud (-00) or Smooth Post (-01) Terminals*
