

Universal Vinyl Curtain

Features and Benefits

- Fuel Savings
 - Prevents air from escaping when the trailer door is open, resulting in faster temperature recovery time and reduction in run hours of the reefer unit
 - Can move up within the trailer with a diminishing load to cool a smaller area
- Food and Product Safety
 - Maintains the temperature of product by keeping cold air in the trailer when the doors are open
 - Will protect dry compartment from extreme cold air in winter while rear door is open
- User Friendly
 - Easy-to-walk-through center-split curtain can be strapped to side wall during loading
 - 2' x 3' clear windows allow light into the vehicle, improving visibility and safety
 - Curtain bottom is vinyl-skirted, ready to be trimmed to various trailer heights
 - Kit includes all parts needed for installation
- Lightweight
 - Curtain and track hardware weigh 48 lbs.
- Available at your local Carrier® Transicold® Dealer
